### DETAILED ACTION

This office action is a response to the election of species filed on 12/19/2006.

#### *Election/Restrictions*

1. Since generic claims 7 and 27 are allowable, claims 8-26 and 28-40, directed to the method for forming a magnetic device, previously restricted from the election of species, are now subject to being rejoined. Claims 7-40 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 11/28/2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

#### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Morrison on 3/15/2007.

The application has been amended as follows:

**IN THE CLAIM**

**Re. Claim 10:** After the phrase "wherein the stop layer" as recited in line 1, change the phrase "consist of group comprising" to --is selected a group consisting of--.

After the phrase "NiCu, and" as recited in line 3, changes the phrase "such derivatives" to --combination thereof--.

**Re. Claim 29:** After the phrase "wherein the stop layer" as recited in line 1, change the phrase "consist of group comprising" to --is selected a group consisting of--.

After the phrase "NiCu, and" as recited in line 3, changes the phrase "such derivatives" to --combination thereof--.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as a magnetic portion is formed between adjacent regions of non-magnetic material and a stop layer is formed over the adjacent regions, and excess material is covered the stop layer and the magnetic portion together and a planar upper boundary of the magnetic portion is formed by chemical-mechanical polishing until the stop layer is reached to define the upper boundary of the magnetic portion that is coplanar with an upper surface of the stop

layer. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 7-40 are allowed.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Thursday between 6:00 AM to 2:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
